

Zero Tolerance Policy

This football club is determined to allow all players to enjoy playing football and referees to officiate matches, free from undue verbal pressure, foul or abusive language, intimidation, encroachment or any form of physical threat or violence.

FA rules empower the referee to sanction and/or remove any spectator, club official, coach or player who acts inappropriately and in extreme cases to suspend or abandon the match.

We will fully support the referee in them exercising such powers when necessary, either in respect of Timperley Villa or opposition spectators, club officials, coaches or players.

Timperley Villa also reserves the right to request any TV or opposition club official, coach or spectator acting inappropriately to leave the vicinity of the match.

Where a 'spectator' line is marked out along the touch-line we would ask that this please be respected and that spectators do not stand in front of it. Spectators should also not stand behind the goals.

Under no circumstances should spectators enter the field of play during a match.

**Your assistance in making this an enjoyable game for all involved
is very much appreciated; Thank you.**
