Dear Ali at Timperley Villa Youth Football Club,

I would like to take this opportunity to congratulate you on achieving your 25th anniversary of the club! Also, congratulations are in order for the fantastic work you are doing with your current initiative to provide youths with opportunities to get involved with sporting programs within the local community.

Your pro active approach to tackling the issues facing the youth of today such as crime and lifestyle is very important in order to help them face and deal with events and issues as they are growing up.

It is always very important to get the community involved with the younger generation and football is a fantastic way of reaching a wide variety of people from all cultural backgrounds. Using sport in general is a good tool to promote cultural diversity and reduce discrimination.

I hope that you continue you all the hard work and encourage more children to get outdoors and join in with sporting activities. It really is very important and I wish more clubs and youth groups had the initiative and drive to do as you are.

Best of luck with your fundraising and promotion!

Good Luck next season!

All the best,

Sam Allardyce
